APX CLASSICS from ANTIC

XE, XL COMPATIBLE

APX lives again. . . via Antic!

The Atari Program Exchange was one of the most advanced software distribution concepts ever created for personal computers (IBM came out with something very similar for the PC in 1984). APX published the best software submitted by Atari users from all over the world. These programs were outstanding—but considered too specialized in appeal for Atari's mass merchandising channels.

APX software was packaged simply but tastefully and sold mostly through well-written catalogs. With the reorganization of the Atari company and the shutdown of APX operations, Antic arranged directly with the authors to re-release many of the very best APX programs—games, real world applications, powerful utilities, demonstrations and tutorials.

APX Classics Line from ANTIC brings back these fine programs that had been unavailable to Atari users for many months. But you'll also notice that some of these programs have never been published anywhere before . . .

We are including this brand new software with our top-of-the-line APX Classics because we want you to know they are as good as the best of APX. (Also a lot are the latest works of former APX star programmers.)

Antic will continue to release additional outstanding programs in the APX Classics line. If you have written a professional-quality program for Atari computers, submit it to **APX Classics from ANTIC**, 524 Second Street, San Francisco, CA 94107. We pay competitive royalties and are the largest single information source for Atari users.

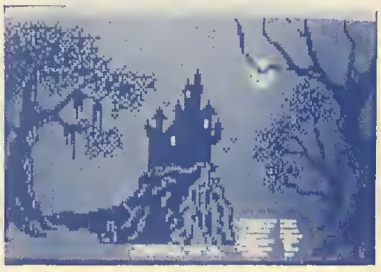

Each program disk is self-documented. Antic is in no manner associated with the Atari Program Exchange. Atari is a trademark of the Atari Corp. Antic is an independent periodical not affiliated in any way with Atari Corp.

All software available on disk only.

NEW!

THE FAMILY TREE

by Harry Koons
Written in BASIC
THE FAMILY TREE can introduce your family to its fascinating history. This program lets you enter and display all pertinent information for each person in your family pedigree. The screen displays a tree with a unique cursor. You move the cursor about the tree using a joystick or keyboard to select a person from the chart. Historical data can then be displayed or edited on the scren. You can save about twenty-four generations on one disk and print charts out on a printer (you may send printed charts to distant relatives to get their help in completing your family's history). A sample pedigree chart is included with this one-of-a-kind program.
REQUIRES: Atari BASIC language
OPTIONAL: One Joystick controller

NEW!

WORD MAGIC®

by Blue Collar Software®
Written in machine language
WORD MAGIC is a first in word-processors for the Atari. It includes *every* major feature of the most popular word-processors, plus many special ones, including super-fast cursor moves, on-line help files, automatic, on-screen print formatting, joystick or trackball cursor control, cut and paste between files, any type font—and it supports every printer with a built-in printer driver editor. WORD MAGIC is extremely fast with all operations, and is menu-driven for easy use. The program works with Antic's DATA MANAGER XL mail-merge feature for creating custom form letters and reports. When used with GRAPHIC MAGIC, Epson and Gemini printer owners can insert any graphic into any document and the program will automatically print it and paginate the document. You can even see where the graphic will be in the on-screen formatting!
OPTIONAL: One Joystick or Trackball controller #AP130 $19.95

GRAPHIC MAGIC®

by Blue Collar Software®
Written in machine language
GRAPHIC MAGIC is FREE when you buy WORD MAGIC. This unique screen print utility for Epson and Gemini printer owners lets you include any graphics picture created with B/Graph, graphics mode 8, Micro-painter, or Microillustrator in your WORD MAGIC document. Your Epson or Gemini will print it out in the format that you specify (½ page or ¼ page) automatically while printing the document. Together, WORD & GRAPHIC MAGIC are the next best thing to using a Macintosh & Image-writer to combine text and graphics in fancy documents.

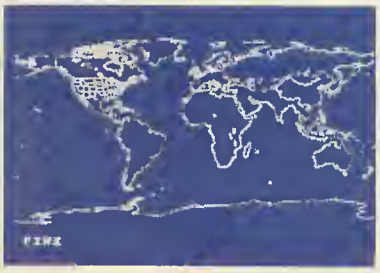

DRAWIT

by James Burton
Written in machine language
DRAWIT is an outstanding drawing program that exploits the Atari's superior graphics capabilities. With 16 different colors and 8 hues at your disposal you can create up to nine pages of your latest masterpiece in memory. Features include automatic fill, page merging, 2 zoom levels for detail work and page wipes and an animator.
REQUIRES: One Joystick
OPTIONAL: Atari BASIC
#AP108 $19.95

NEW!

DATA MANAGER XL

by William Bartlett
Written in BASIC and machine language
DATA MANAGER XL is a general purpose data management program that is powerful and flexible enough for most applications. The number of records is only limited by free disk space; up to 100 fields per record are allowed, with up to 120 characters per field. Totally reliable indexing will make you breathe easily—and you can add and delete fields from your record structure at any time. The reporting capability is exceptional in DATA MANAGER XL—there is an internal "mini word processor" for your reports and form letters, plus a powerful mail-merge option for Atariwriter* and Antic's WORD MAGIC. The "Tools Manager" module has database diagnostics, plus you can also check the accuracy of your disk drive speed. Comprehensive documentation is included.
REQUIRES: Atari BASIC
#AP129 $19.95
Atariwriter© Atari Corp.

Mapware

MAPWARE

by Harry Koons and Art Prag
Written in BASIC
Create and save high-resolution world maps with MAPWARE. You can locate all the main land masses on Earth—with 9000 pairs of geographic coordinates at your disposal. MAPWARE is the only source of this data for Atari BASIC programmers, HAM radio/satellite applications, geography, and cartography. You can create and display maps in four different projections—and you can draw a world map from above any geographic spot you wish. MAPWARE comes on two diskettes—one for the programs and one containing the coordinate data.
REQUIRES: Atari BASIC
#AP134 $19.95

INSTEDIT

by Sheldon Leemon
Written in BASIC and assembly language
The best character set editor we've seen. INSTEDIT can help you make maximum use of the advanced graphics capabilities of your Atari computer. You use a joystick to edit a character in an eight-by-eight matrix. INSTEDIT simultaneously displays the modifed character in all six graphics modes. You can even create objects to use with player/missile graphics routines. You can store a character set for further work and even write it to a disk file in the form of BASIC DATA statements, assembler source code, or even an entire BASIC subroutine for incorporating your character set into a program.
REQUIRES: Atari BASIC
One Joystick
#AP117 $19.95

CHAMELEON CRT TERMINAL EMULATOR

VER. 4.02 NEW VERSION

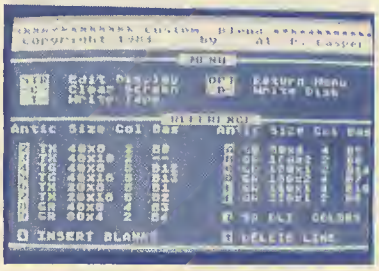

by John Palevich

Written in machine language

Turn your Atari into a variety of computer terminals! Five popular types: Glass TTY, ADM-3A, DEC VT-52, IBM 3031 ASCII, plus a test terminal. Software supports tab, backspace, line feed, form feed and bell signal. Wide-screen 80-col. emulation (displays 40 columns at a time with auto-horizontal scrolling). Choose 40, 80, or 132 character line lengths! Use with UNIX operating systems too! User-definable terminal parameters. Autodials and stores up to 16 phone numbers. Supports Hayes-compatible and Atari 835/1030 modems (upload/download). This version is totally compatible with the popular Xmodem protocol!

REQUIRES: 48K RAM

#AP113 $19.95

Custom Blend

CUSTOM BLEND

by Al Casper

Written in machine language

If you do any programming with your Atari computer, CUSTOM BLEND will give you the power to create any combination of text and graphics modes — even Display List Interrupts — automatically! Just sit back in your chair with your joystick, and CUSTOM BLEND will write BASIC subroutines controlling any of the Atari's 14 display modes. Get results that used to take hours of trial & error—in minutes! The Automatic Display List Interrupt feature makes it easy to put two totally different character sets on the screen at once—and double the number of colors you have to work with!

REQUIRES: One Joystick

OPTIONAL: Instedit; Atari BASIC

#AP118 $15.95

NEW!

SCREEN PLOT

by Robert Wilson and Michael Reichmann

Written in compiled BASIC and machine language

SCREEN PLOT is an extremely useful graphics program that allows you to transfer color screens created by almost any Atari graphics creation program to paper via the Atari 1020, Radio Shack CGP-115, Mannesmann Tally Pixy 3, or Sweet Pea color plotters. This is the *only* program of its type available, and allows you to control many output characteristics. You may plot in different sizes, display pictures and preview plotter pen colors on the screen, and change aspect (display) ratios. You can superimpose one screen-plot on top of another. Many creative opportunities are possible with SCREEN PLOT—it even includes the BASIC source code so that you may study how a plotter driver is written.

REQUIRES: A compatible plotter

#AP135 $12.95

NEW!

PRINTER DRIVER CONSTRUCTION SET

for Atariwriter*

by John Eric Hinckley

Written in machine language

PRINTER DRIVER CONSTRUCTION SET will make your Atariwriter cartridge *completely* compatible with whatever printer you own. The program supports all of your printer features, including centering, elongated text, multiple fonts, proportional spacing, underlining super/subscripts, and blocked-right text. The program disk includes printer drivers for the most popular printers, such as the Epson, Gemini, Okidata, NEC, C-ITOH, and various daisywheel printers. If you own any other printer, the program will prompt you once, the first time, for control codes from your printer manual.

REQUIRES: Atariwriter cartridge, any Atari-compatible printer

#AP131 $19.95

*Atariwriter© Atari Corp.

STOCK MANAGEMENT

Atari APX Award Winner

by Greg Thrush

Written in BASIC and machine language

Here's the way for a serious trader to stay on top of stock record-keeping and analysis. A series of easy-to-follow menus guides you. Maintains hundreds of transactions! Access your stocks' current status, current value, capital gains, total value, or a summary of your holdings. Then print them out! Even special commands written for historical tracking of portfolios.

REQUIRES: Atari BASIC

#AP106 $19.95

Bulletin Board Construction Set

by Scott Brause

Coming August 1st. BBCS is the first of a new generation of personal bulletin boards. The four BBCS editors allow more flexibility than you've ever imagined (how's 65,791 security levels AND additional privilege levels). Plus, BBCS will support many Atari system configurations — even eight Atari's, a multiplexer and a 20 MGB hard disk. Read the review of BBCS on page 41 of this month's Antic. Call one of the three BBCS beta-boards listed and log on to the future of telecomputing. Hayes-compatible version available here August 1st. 1030 and MPP versions available later in 1985.

Personal Productivity

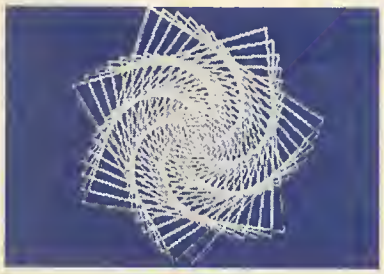

DEEP BLUE C COMPILER

by John Palevich
Written in C

More powerful and faster than BASIC, yet free of the tedious hours of debugging common in assembly programming, C is a valuable general purpose language. Pointers, recursive functions, and high-level conrol structures make complex software systems easy to design, implement, and maintain. Furthermore, C is the de facto systems programming language of the new generation of "workstation computers." DEEP BLUE C is a proper subset of version 7 C, which means that programs written for it will run almost without change on computers supporting the full language.

REQUIRES: 48K RAM; A text editor such as Word Magic/AP130
#AP114 $19.95

Mathlib for C

REAL ESTATE CASH FLOW ANALYSIS

by Richard Lindgren
Written in BASIC

Real estate investing can be easy! With this program, you can learn the ins and outs of real estate totally risk-free. Now your Atari can assist you in analyzing the costs and benefits of income-producing property. The three main modules are completely integrated; the Data Editor, Cash Flow Analysis section, and Amortization section. For example, the Amortization section will calculate data on loan arrangements. This data can then be fed into the Cash Flow section to analyze how it will affect the profitability of that investment. A sample application is included, and the documentation is excellent. Some knowledge of investment terminology is necessary.

REQUIRES: Atari BASIC
#AP125 $19.95

STRATEGIC FINANCIAL RATIO ANALYSIS

by Richard Lindgren
Written in BASIC

FREE with REAL ESTATE CASH FLOW ANALYSIS! If you are interested in investments of any type, you can use STRATEGIC FINANCIAL RATIO ANALYSIS to compute ratios that measure a firm's profitability, liquidity and use of debt. S.F.R.A. can also help interpret a management's business strategies using "what if" analyses to evaluate the impact of a business decision on future performance. You can work with two sets of information at once—essential for comparisons. Easy use and thorough documentation make this program a good investment.

REQUIRES: Atari BASIC language
#AP125 $19.95

NEW!

THE HELP SYSTEM

by Michael Barall
Written in machine language

Now you can create professional help systems for programs that you have written! The Help Text Compiler and The Help Text Viewer will automatically generate help systems controlled by menus and sub-menus. You can create any arrangement of menus and sub-menus that you want, with up to 25 levels of sub-menus available. You can modify the source code (included), and build your help systems into any program that you write. Put those special keys, like the HELP key, to work for you. THE HELP SYSTEM was written by a Stanford mathematician who directed Advanced Operating System development at Atari, Inc.

REQUIRES: Text Editor (such as Word Magic/AP130
OPTIONAL: Atari Macro Assembler or MAC/65
#AP136 $15.95

MATHLIB FOR DEEP BLUE C

by Frank Paris
Written in assembly and DEEP BLUE C

Antic's family of DEEP BLUE C software is extended with MATHLIB, a whole new library of math functions designed to expand your DEEP BLUE C COMPILER into the area of floating point calculations. MATHLIB provides the access that DEEP BLUE C doesn't to the functions in the ATARI Operating System Floating Point ROM. Among the 32 new math functions that MATHLIB provides are: integer/floating point, degree/radians, and ATASCII/floating point conversions; floating point addition, subtraction, multiplication, division and square roots; natural and base 10 logarithms and exponentiation, and more!

Demonstration programs provide examples of how it's used, and how you can use MATHLIB in Turtle graphics.

REQUIRES: DEEP BLUE C COMPILER (#AP114)
#AP132 $19.95

DEEP BLUE SECRETS

by John Palevich
Written in C and machine language

Also available is DEEP BLUE SECRETS, the source code for DEEP BLUE C COMPILER and linker and the source text for the interpreter. With it you can maintain, modify, and extend this C language for your programming needs.

REQUIRES: DEEP BLUE C COMPILER; Atari Macro Assembler
48K RAM
#AP115 $19.95

APX CLASSICS FROM ANTIC

Personal Productivity

CARTOONIST

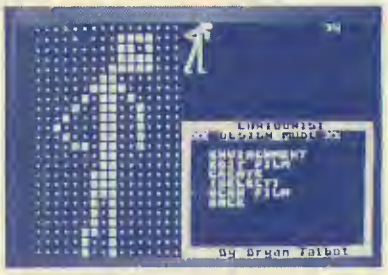

by Bryan Talbot

Written in BASIC and machine language

Did you ever wish that you could create some exciting graphics with your Atari? You can with CARTOONIST. This menu-driven animation program gives you full control over your movie characteristics. Your frames can be short or tall, different colors and shades, all at once! You can draw, edit, insert or delete frames, copy and exchange ones until you're ready to animate them. Then, CARTOONIST will play the frames back, one after another, at any speed you wish, up to 200 frames-per-second. It's so versatile that anyone who wants to learn about traditional animation can begin right away! CARTOONIST is loaded with features that make it perfect for programmers who want to use animated sequences.

REQUIRES: Atari BASIC language. One Joystick controller
OPTIONAL: One set of Paddle controllers #AP124 $19.95

Cartoonist

NEW PERSONAL PRODUCTIVITY SOFTWARE!

These three menu-driven programs are designed for everyone—no special computer knowledge is required! Developed to give Atari owners solutions to everyday organizational problems, each one includes thorough documentation.

THE EXPENSE TRACKER

by Erv Friedman

Written in BASIC and machine language

THE EXPENSE TRACKER will automatically keep track of all your home or business expenses. Its large capacity allows you to track 500 expense days on any disk with up to ten expenses per day (a combined total of 5000 expenses on a single diskette). You can catalog expenses by type, project, and employee (you add your own definitions to the ones already provided for you by the system). THE EXPENSE TRACKER offers complete reporting on transaction, project, or employee details. Reports can be printed in detail or summary—by month or year-to-date.

REQUIRES: Atari BASIC
#AP128 $19.95

THE HOME INVENTORY

by Erv Friedman

Written in BASIC and machine language

THE HOME INVENTORY is the *only* complete inventory system available for Atari computer owners. You can now catalog every item in your home or business—ideal for insurance and tax purposes. The program will identify items by type, by room (or building) *and* location within room (up to 500 items per disk). You can define your own types, rooms and locations and add them to the categories that come on the disk. THE HOME INVENTORY allows you to track manufacturer, serial numbers, model numbers, purchase date, and price. The system offers complete reporting by inventory number, type and location. For tax purposes, you can receive reports on "straight line" depreciation or single item depreciation.

REQUIRES: Atari BASIC
#AP127 $19.95

THE ROSTER

by Erv Friedman

Written in BASIC and machine language

THE ROSTER is an easy-to-use system for managing lists of names and addresses for any member of your family. Its large capacity allows you to store up to 500 entries on any disk. THE ROSTER prompts you to enter all address and telephone data; plus, each entry can have three special fields for things like birthdates, anniversaries, etc. When you want to print your entries out, THE ROSTER will automatically select by any criteria you wish: name, state, zip code, or your own special codes. The program also features variable spacing to fit any label or envelope, plus complete reporting for all entries (including a handy phone list).

REQUIRES: Atari BASIC
#AP126 $19.95

Credit card holders, call toll-free, 24 hours-a-day

SEVEN CARD STUD, A USER PROGRAMMABLE SIMULATION

by Monty Webb
Written in BASIC and machine language
SEVEN CARD STUD simulates five card-playing partners with multi-programmable personality traits. You can "fix" the game to determine each player's characteristics (your poker buddies maybe?). You decide if a player is hard, average or easy to bluff, how often the player raises, and overall playing strategy (too loose, smart or too tight). Manipulating the competition allows you to sharpen your poker skills without becoming discouraged. To make it even better, SEVEN CARD STUD uses 100 percent joystick control for all commands and play options. Poker players are sure to enjoy the extra touches like realistic graphics and sounds in this excellent simulation.
REQUIRES: Atari BASIC & one Joystick #AP123 $15.95

Seven Card Stud

RAID ON GRAVITRON

by Jim Sommers
Written in machine language
RAID ON GRAVITRON is a point-of-view space battle with outstanding 3-D effects. You dogfight with cyborgs from Gravitron to save the earth. Make sure your shields aren't vaporized by their fireballs! Your Emperor Eddie then commands you to warp out of our universe in a suicide mission to Gravitron itself. During your trip you have to navigate the booby-trapped time tunnels and shoot your way through the statis walls. You must then seek out and destroy your final target.
REQUIRES: One Joystick
#AP121 $12.95

NEW!

WEAKON

by Eric Freeman
Written in machine language
WEAKON takes you into the thrilling new world of inner space and sub-atomic particles. You must search for and capture elusive weakons to build up your power generator. Speeding gamma photons, radiation clouds and mesons threaten your very existence—and to make matters worse, all these particles accelerate after several weakons are taken prisoner!
WEAKON is a classic arcade shoot'em-up with unique graphics and effects. With ten levels of difficulty, mastering WEAKON should provide a real challenge.
REQUIRES: One Joystick
#AP122 $15.95

SPACE WAR

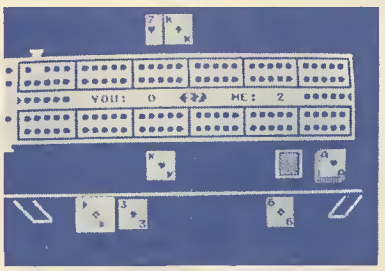

by Jay Jaeger
Written in machine language
This two-player galactic shoot-out is a hot new adaptation of the classic mainframe computer game developed at M.I.T. in the early sixties. Your goal: to destroy your enemy's space ship before it gains control of our solar system. The sun is both an ally and potential pitfall — you use its gravitational waves to avoid torpedoes and propel your ship to strategic positions. But if you get too close, you're a frozen sitting duck for enemy forces.
REQUIRES: One Joystick
#AP101 $12.95

Raid on Gravitron

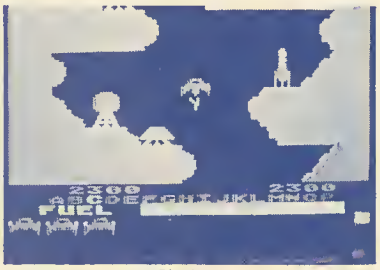

CRIBBAGE

Atari APX Award Winner

by Jose Suarez
Written in BASIC and assembly language
If you're not a cribbage player already, this quick and exciting version will convert you first time around. CRIBBAGE pits your ability against the computer to assemble winning card combinations and rack up the ultimate score of 121 points before it does. Fast pace and superb graphics make this game a winner!
REQUIRES: Atari BASIC
#AP102 $12.95

Cribbage

Phobos

PHOBOS

Atari APX Award Winner

by Greg Christensen
Written in machine language
Can you master the 16 levels of defense and destroy the Martian's command center? Take your fighter into the core of Mars's largest moon—flying inside harrowing caverns, picking up fuel and knocking out missiles. Phobos's awesome defenses include Compound Laser Gates within narrow pathways that require fine maneuvering; the fast action and great graphics are guaranteed to keep your adrenaline going! With four skill levels, everyone can set their own pace. Fans of CAVERNS OF MARS will find PHOBOS exceptional.
REQUIRES: One Joystick
#AP119 $15.95

GALAHAD AND THE HOLY GRAIL

by Douglas Crockford
Written in Machine Language
Carry on the sacred quest! Find the miraculous Grail! You're a knight of the legendary Round Table. Travel forests, meadows, roads, and castles with secret passages. Use the magic ring for protection against the fire-breathing dragon and other perils. Play alone or with 2 or more players. Return the Holy Grail to Camelot and win. Nearly a hundred rooms to search!

Crockford is now with Lucasfilm's Games Group—he's done it again!
REQUIRES: One Joystick #AP110 $15.95

Mars Mission II

SNARK HUNT

Atari APX Award Winner

by Jeff Johannigman
Written in BASIC and machine language
Snarks (like sharks) are difficult beasts to detect — hidden by mysterious depths. In SNARK HUNT, vorpal beams are your only tool to track these elusive creatures. The beams will react in different ways to the presence of snarks, and you will find your logic taxed to the limit trying to decipher where the snarks are. Up to 8 players can attempt this mission; higher levels create a special challenge.
REQUIRES: Atari BASIC language; One Joystick
#AP105 $15.95

Taxicab Hill

DOG DAZE DELUXE

by Gray Chang
Written in machine language
A dog's favorite fantasy is at the core of DOG DAZE DELUXE—to become top dog by staking your claim to all the new fire hydrants popping up on the screen! It's not easy—careless drivers and competing underdogs are your constant hazards—but no one said a dog's life ever was! Excellent 3-D effects and the one-or-two player options make this game fun for everyone.
REQUIRES: One Joystick per person
#AP111 $12.95

NEW!

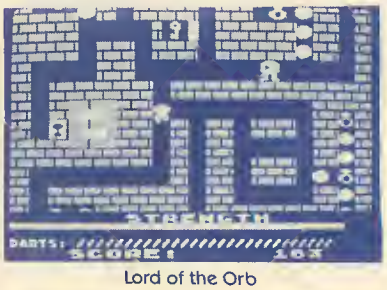

TAXICAB HILL

by W. Morris & R. Hoffman
Written in machine language
SMASH! CRUNCH! BANG! goes your taxi as you race up and down the hills of San Francisco in TAXICAB HILL. Watch out though, 'cause those pirate cabs are always trying to steal your fares. The radio in your cab keeps drifting to a crazy jazz station, and those pirates never stop trying to steal your livelihood. There are lots of screaming pedestrians waiting for a lift, and when they pay you, you'll have enough $$$ to flip over the edge into the next San Francisco neigbhorhood. All of us San Franciscans loved TAXICAB HILL the first time we saw it at Antic. Features a super-high-res (16-bit) 4-voice music mode never heard before in any Atari game.
REQUIRES: One Joystick
#AP137 $15.95

NEW!

LORD OF THE ORB

by Jose Suarez
Written in machine language
Explore the three vertically scrolling levels of evil warlock Kyalramoell's castle. Recover the nine treasures he stole from the good kingdom of Boelinus, and rescue the Living Orb of Fortune. Destroy foul creatures from the Land of Nightmares with your glowing darts, gain strength from the gold coins and diamond rings scattered about the castle corridors. LORD OF THE ORB is destined to be one of 1985's classic hits!
REQUIRES: One Joystick #AP103 $15.95

Lord of the Orb

NEW!

MARS MISSION II

by Greg Christensen
Written in machine language
If you want to explore life beyond CAVERNS OF MARS, the MARS MISSION II is for you. In this sequel, you've made it past the vertical caverns and you're flying an envoy of ambassadors from Earth into the Martian City. All of a sudden, you're attacked by those Martian baddies and . . . you guessed it, the fighting starts all over again. But this time, things are totally different as you must dodge fields of flying boulders, missile launchers, and other deadly threats. You've got to get past all the levels and make it back to your base! Greg Christensen became the Atari Program Exchange's most successful author with CAVERNS OF MARS; find out why the MARS MISSION II is even better.

BURGERS!

by Douglas Crockford
Written in Written in machine language
BURGERS! would terrify even easygoing Wimpy away from his favorite food! As you float above earth, burgers drift gently upward and if they touch you, you get bigger and bigger till you EXPLODE! Designed for young children, the score is totaled as "burgers served" and the music is light and spritely, (despite the grisly premise).
REQUIRES: One Joystick or Paddle Controllers
#AP109 $12.95

SARATOGA

Atari APX Award Winner

by Paul Wehner
Written in machine language
Great wars make great games, and if you enjoyed EASTERN FRONT you'll love SARATOGA—*the* war simulation of the American Revolution. The time is 1777 and your American forces *must* destroy the redcoats before the year ends, yet retain control of Albany, Philadelphia, West Point and Fort Ticonderoga. Eight scenarios and game-save feature make this simulation a lasting hit!
REQUIRES: One Joystick
#AP104 $15.95

ATARIORACLE

A Compu-Spiritual Advisor
by Stephen Wagner
Written in BASIC
Quiet the room . . . dim the lights . . . and concentrate. Feel the eerie vibrations that permeate the atmosphere as you ask the all-knowing AtariOracle your questions. Ask it about anything: your love life, friends, finances, your future. The AtariOracle's ghostly hand will spell out its startlingly prophetic answers. All questions and answers can be outputted to your printer for a record of your "session." Includes an Answer Editor that allows you to customize the answers (amaze your friends with intimate details). This one will haunt you!
REQUIRES: Atari BASIC
#AP138 $15.95

DANDY DUNGEON

by John Palevich
Written in machine language
A unique dungeon adventure/construction set for up to 4 players. You're armed only with a bow and arrows and your wits. Get past the monsters! Collect treasure, magical smart bombs and maze keys as you travel through 26 levels! Easy keystroke commands let you create your own multi-screen scrolling playfields. Print out your new levels on paper with any printer. The secret tactic is cooperation among the players in the DANDY DUNGEON.
REQUIRES: One Joystick per player #AP116 $15.95

ANTIC PUBLIC DOMAIN LIBRARY

There's a treasury of Public Domain software for Atari computers. And the Antic Public Domain Library supports all Atari owners, users groups, and bulletin board sysops by making available an ever-growing catalog of the highest quality PD programs for everybody to share.

All programs in this series are sold as is. There's no documentation included, except what's built into the programs, Therefore, you may need some expertise in order to use the products properly . . . and there may be some programming quirks you'll need to modify for your individual hardware system. However, all products have been tested at Antic and will perform. Due to unforeseen circumstances, contents may vary slightly from the descriptions here. But each disk is filled with proven useful programs.

GAMES

Antic Games Disk #1

Our all-time bestseller! Chicken: by Stan Ockers. Classics like Reversi, Hangman and Monopoly. Clewso: detective adventure.
#PD001 $10.00

Games Disk #2

Another top seller! Blackjack simulation. DeathStar: sci-fi action. Wumpus: text adventure. Civil War: strategy game. Artillery.
#PD002 $10.00

Fantasy Ventures

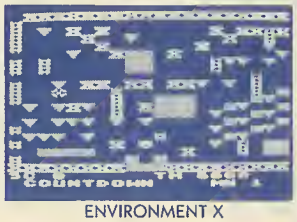

Featuring sophisticated simulation games and text adventures. Seven top games including Titan, Horserace, Dungeon, Tiger and Hurricane.
#PD027 $10.00

Seagames and More

Oceangoing arcade action with Jellyfish and Convoy. Also mystery fun with Sherlock, Sabotage and Quest. Relax from the dangers with Miniature Golf.
#PD029 $10.00

Nine Big Games

Antic games disk #10 includes 9 new games, most of which have never appeared in public domain before. Computer Backgammon, banana-grabbing monkeys, Environment X, Mad Masons and more.
#PD034 $10.00

ENVIRONMENT X

Dozen Top Games

Twelve exciting games on this great disk value. From Knights to Wild West, from Alien Ship to Lone Eagle. Plus Boxes, Tanks, Tilter, Tragedy, Balloons, Eggs and more.
#PD030 $10.00

Games Greats

Frog: another Ockers classic. Arcade action galore with Tank Battle, Speed Demon, Collisi, Petals, Draw and more.
#PD003 $10.00

More Games Greats

Bats: yet another Ockers masterpiece. Couch: analyze yourself. Steller Defense: zap the aliens. MasterBrain: famed logic game. Hammurabi: classic simulation of ancient rule. Slalom, AceyDucy and more.
#PD005 $10.00

Tales of Adventure

Four huge all-text adventures. An amazing value for fantasy puzzle-solvers. Enter into a jungle mystery and a deadly treasure hunt. Become the captain of a doomed ocean liner . . . or wake up as a superhuman monster.
#PD032 $10.00

LANDER II

Moon Games

Lunar Lander: new improved version. Plus more lunar action with Moon Base, Gravity, Defense. Talking Wumpus: text adventure upgraded for S.A.M. speech synthesizer. Pig, Fish: arcade menagerie.
#PD006 $10.00

Game Treasury

Packed with 13 hot new public domain games. Puzzle games include Boggler, Cubes and Tic1. Plus Pinball, Dark Tower, Meteor, Outpost and War.
#PD028 $10.00

Big Game Duo

Two BIG games that take up a whole disk. Herbie: 4 levels of screen action. Smokie: graphics and text role-playing simulation of a favorite good ol' movie.
#PD007 $10.00

Ockers & Adventure

Vultures plus Castle Hexagon —2 of the best action games from Stan Ockers, the king of public domain. The rest of the disk is a large scale text adventure that you can play or modify to create your own games.
#PD004 $10.00

CASTLE HEXAGON

GAMES

Fast Fun #2

More speedy machine language action games. Three highly professional games that fill all but 6 disk sectors. Erg and Diamond by assembler whiz Len Dorfman, plus Tricky.
#PD035 $10.00

DIAMOND

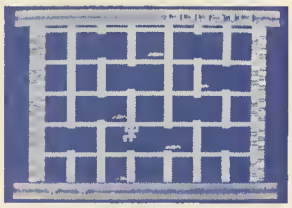

TAXMAN

Antic Exclusives II

Seven more all-new action games submitted to Antic and never before in PD. Space Limbo: invaders with a twist. Bay Pilot: sail the world for treasure. Spook Busters: hit movie excitement. Typo Time: typing drill game. Also —Taxman, Hats, AntiPong.
#PD009 $10.00

Fast Fun #3

Antic's third 100 percent machine language game collection. Five extra-fast, challenging action hits. Froggie, Chomper, Smush, Roundup, Xevious and Nordic offer you arcade fun galore.
#PD031 $10.00

SMUSH

Business & Finance

Over 14 programs. BankBalance: checkbook balancer. IRA: retirement fund accounting. Business: menu-driven integrated software. BarGraph: presentation graphics. SinkFund: sinking fund tracker.
#PD022 $10.00

The Fix XL

Seek no further if you've been trying to find the Atari Translator Disk so you can run early software on your XL model computer. FIX XL is the easiest and most powerful translation software around, better than the factory original.
#PD026 $10.00

100% Fast Fun

All fast machine language action games. Much smoother and more challenging than BASIC games. Creepshow and Blackhole: 2 pinball boards. Whirly-Flyer: exciting chopper action. Passionately: graphics/music demo by Price & Gilbertson.
#PD021 $10.00

Super Utilities #1

Microassembler: USR routines, assembler. Doc: disk documenter. Num: automatic line numbers. Printnop: connect parallel printer to ports 3 & 4. Memtest: memory tester.
#PD010 $10.00

Super Utilities #2

Bubble Sort: data controller. TYPO: original Antic listing proofreader. Home Inventory. Renumber: BASIC line number changes. Compare: listings difference checker. Modem: telecommunications software.
#PD011 $10.00

Super Utilities #3

Disassembler: ML analysis. Tiny Text: word processor. GTIA Text Window. Label Printer: for Epson. RT Clock: real timing.
#PD012 $10.00

Antic Forth

Double-sided disk with powerful FIG-Forth language and editor, backed with on-disk tutorial.
#PD020 $10.00

APPLICATIONS

ArtDOS

If you use microscreen graphics or special character sets in your programs, ArtDOS will load them to your screen directly from DOS—no graphics program is required. New DUP.SYS menu options include Load Micropainter file, Load Microillustrator file, Load or Display Character Set, Make AUTORUN.SYS, and Read Text File. One-key commands speed things up. This disk includes 10 picture files, plus 20 new character sets, which you can use with any program you write. Make your programs more professional looking.
#PD043 $10.00

Computer Tutor

Eight learning games for youngsters. Barnyard: a mystery. MathWars: arithmetic action. Concentration: general knowledge. FrenchGame: translation flashcards. Quiz: giant multi-purpose test program.
#PD023 $10.00

Photo Graphics

Demonstration collection of outstanding digitized photos.
#PD017 $10.00

Photo Graphics

Atari Mini-Film Festival (or "Reel Time Animation")

See the amazing computer animation capabilities of your Atari! This disk contains eight films, all made with Moviemaker by artists from all over. See the fabulous Dancing Robots, Swarming Birds, Charlie Chaplin, and lots more (including Antic's 1984 New Year's Juggler). The disk has a machine language Moviemaker autoplayer on it; you don't need to own the program to enjoy these incredible animations.
#PD042 $10.00

PICK OF THE MONTH

HomePak Customizer Disk

If you own HomePak, this disk will allow you to change dozens of parameters: new character sets (includes one new example charset), key repeat rate and bell toggle, auto line-feeds on/off (essential for MCI mail and Delphi). Learn about the custom macros. Special handlers for MPP modem, ATR-8000, and R-Verter owners. Including a new DOS 2.5 patch, plus 130XE owners can use the RAMdisk patch to access their extra 64K.
#PD041 $10.00

TELECOMMUNICATIONS

MSCOPE MPP CompuServe Terminal Emulator

MSCOPE is a special version of TSCOPE just for the MPP1000 series of modems (written by Joe Miller). This is the *only* way to view CompuServe's on-line graphics. MPP owners will appreciate 100% error-free downloading from the SIG*Atari (finally!). Comes ready-to-run, with complete documentation.

#PD040 $10.00

Kermit Terminal Emulator

Now your Atari 800 can talk to the new Atari ST's, IBM PC's, and many other minis and micros. Kermit gives you more control over transferring files than any other terminal program. Invented at Columbia University, this version was written by John Palevich (the author of APX's Chameleon). Comes ready-to-run, with complete documentation. Supports Hayes compatible (850 interface) modems.

#PD038 $10.00

VT100 Terminal Emulator

How would you like an 80-column terminal program without needing any special hardware? This will turn your Atari into a DEC-compatible VT100 graphics terminal. Supports: Hayes compatible (850 interface and R-Verter), Atari 835 and 1030, and MPP1000 modems. Access on-line VAX graphics. Use with any DEC minicomputer, including Delphi and CompuServe. Ready-to-run, complete documentation included (requires fix XL).

#PD037 $10.00

Antic Telecommunications

Featuring latest improved AMODEM w/phone directory and autodialer. Tscope for Compuserve SIG*Atari downloading & online graphics. Plus Disk O'Link, a Mac-like bit-mapped terminal program written in C. 850 interface version.

#PD024 $10.00

Atari 1030/835 modem version
NEW! Now including TERM1030 ver. 3.0 w/ unlimited file-size downloading plus auto-dialing directory.

#PD025 $10.00

THE PAPIE DISKS

Climb into the hacker's attic and discover the arcane secrets of Atari professional programmers!

In the early days of Atari, top professional freelance programmers banded together to trade their secrets. Organized by the prolific Jerry White, the group called itself the Professional Atari Programmer's Information Exchange (PAPIE).

The PAPIE roster reads like a Who's Who of Atari programmers. A sampling includes Russ Wetmore, author of "Preppie I & II," Clinton Parker, creator of ACTION!, Jim Nangano, "Flip & Flop" and "Spy vs Spy," and Sheldon Leemon, creator of "Instedit."

Each member contributed their own private programming utilities and favorite programs, which were compiled on disk by Jerry White under the contributor's name and program number (i.e. Wetmore's 3rd program would be WETMORE3). Some of these professionals are now willing to share them with **Antic**'s readers, so we are offering them as a kind of "hacker's delight."

Most PAPIE programs are utilities that help solve advanced programming problems. And there are a good deal of assembly language routines intended to be incorporated into larger programs. In some cases there is documentation, but mostly there is none. Get the whole set and explore how the pros program!

EACH DISK IS GUARANTEED TO BE MORE THAN 95% PACKED!

BEST OF **ANTIC** ANTHOLOGY

298 pages of the finest material from **Antic's** first year (original magazines out of print). You get 31 terrific programs—utilities, applications and tutorials. 10 games including 6 never published anywhere else. NO typing when you order Book+Disk!

#MG200 $12.95

ANTHOLOGY & DISK (double-sided)
#MG201 $24.95

ABCs OF ATARI COMPUTERS

From ABSolute to XMODEM, this 228-page encyclopedia of Atari lore puts thousands of vital facts at your fingertips. Jampacked with valuable short programs too. A superb microcomputer reference source for both beginners and advanced users.

#MG600 $14.95

ABCs + DISK
#MG601 $24.95

KIDS AND THE ATARI

Best-selling starter book for new Atari BASIC programmers. Great for adults as well as kids. The book that got thousands off and running. 219 large-format pages and clever illustrations.

#MG900 $19.95

ATARI GRAPHICS AND ARCADE GAME DESIGN

Add realism, action & interest to your games. 10 clear, detailed chapters unlock the mysteries of writing imaginative Atari games! Learn the secrets! Increase your skills! Complete basics, advanced theory & stumbling blocks. Lists 6 ready-to-run game programs. For novice or expert. 477 pages w/appendix.

#MG103 $19.95

ATARI COLOR GRAPHICS

An outstanding 202-page Beginners Workbook that unlocks the Atari's powerful color painting capability. Teach yourself to be a computer artist, with this step by step course. Lots of sample programs.

#MG500 $12.95

ATARI **BASIC,** FASTER AND BETTER

By Carl Evans,
Antic Contributing Editor

Over 80 BASIC and machine language routines, handlers, and program shells in this 300 page "cookbook." Ready-made solutions to just about every common programming problem. Packed with powerful techniques and tricks for all Atari programmers.

#MG400 $15.95

ATARI BASIC + DISKS (2 double-sided)
#MG401 $29.95

THE MUSICAL ATARI

Learn music and BASIC at the same time in this 167-page guide to Atari 4-voice sound programming. Converts your keyboard to a piano or chord organ. Includes 29 favorite songs arranged for piano or Atari—plus library of sound effect routines.

#MG800 $14.95

LIFE

Wouldn't you like to know more about yours?

Introducing

LIFESPAN

At last. Entertaining, enlightening software for the experienced Human Being.
By John O'Neil, the man Electronic Games magazine called "The Salvador Dali of Computer Games."

Five games take you on a kaleidoscoping journey through Life. You can play them.
Think about them. Or just look. LIFESPAN. A game about where you've been. Where you are.
And where you're going.

#LS100 $17.95

LIFESPAN is an Admacadiam production.

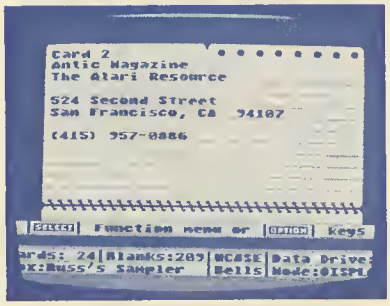

YOUR SOFTWARE RIGHTS

1. You, the Atari owner, have the right to expect a simple, easy-to-use filing system.
2. You have the right to see your Atari perform to its fullest capabilities—using advanced graphics, color and sound.
3. You have the right to expect home productivity software that's easy, convenient and natural.

AND YOU HAVE THE RIGHT TO YOUR SATISFACTION GUARANTEED OR YOUR MONEY BACK.

We hear you. That's why Antic is presenting you with Sparky Starks and Russ Wetmore's

HomeCard™

For $24.95, **HomeCard** gives you an electronic filing box. Intelligent Rolodex® with automatic tone or pulse dialing of up to 234 telephone numbers. Full search ability with the speed of a RAMDISK. And the natural convenience of index cards.

HomeCard allows you to:

- chain any number of cards together
- store up to 234 cards in each box (one disk)
- create up to 8 major categories and effortlessly search any combination of those groups
- use any 1030 or Hayes-compatible modem or TV speakers to autodial

Ideal for home and student applications.

Exclusively from Antic.
Requires 48K and disk drive.

NEW CUSTOMER SERVICE TEAM

Meet Brad Kershaw and Lisa Wehrer, Antic Arcade Catalog's new Customer Service Team. Brad handles technical problems. He's been an Atari programmer for five years, has a computer science degree and plenty of experience in computer retailing. Questions about orders are taken care of by Lisa, a customer service specialist for ten years.

Now if you have any problems with your Catalog orders or products, you can phone Antic Customer Service (415) 957-0886 between 9 a.m. and 1 p.m. Pacific Time, Monday through Thursday. Brad or Lisa will solve your problem. (So please don't phone the 800 # operators if you need help.)

You can also write to the Antic Customer Service Department at 524 Second Street, San Francisco, CA 94107.

CompuServe members can get fast, convenient service by leaving a message on the ANTIC ONLINE Product Information Section. Just type GO ANTIC when you log onto CompuServe and then select number 1 from the ANTIC ONLINE Main Menu. Your Customer Service feedback will be downloaded daily and Brad or Lisa will respond by electronic mail.

Ordering Information

$10 minimum order, plus shipping and handling charge. We'll fill orders of $10.00 or more. Please add $3.00 shipping and handling for up to 10 disks, and an additional $3.00 for orders of more than 10 disks. Plus, add $3.00 for each book to cover shipping and handling charges. Magazine Back Issue price ($5.00) includes s/h.

Mail Orders. To order by mail, fill out an order form and mail it, together with your payment, to the Antic Arcade, 524 Second St., San Francisco, CA 94107.

Phone Orders. For faster service, phone in credit card orders, using our toll-free number, 800/227-1617 ext. 133 (or 800/772-3545 ext. 133 for calls within California). These numbers are available 24 hours-a-day, 7 days a week.

Payment by check, money order, VISA or MasterCard. Your payment must accompany all mail orders. Enclose a check or money order, or charge your order to your VISA or MasterCard account. Include the shipping and handling charges in your payment. California residents need to add 6.5% sales tax to the merchandise total, exclusive of shipping and handling.

No C.O.D. or purchase orders. We regret that we cannot accept orders paid by C.O.D. or by a purchase order.

Foreign orders. At present, we can handle orders only from the United States.

Delivery to P.O. Box numbers. We ship your order by U.S. Mail and United Parcel Service (UPS). Because UPS doesn't deliver to P.O. Box numbers, please use a street address on your order form.

Warranty. The **APX Classics from Antic** products are covered by a limited 30-day warranty against defects in materials or workmanship.

Customer Service. Please direct ALL QUESTIONS REGARDING ORDERS to the new Antic Arcade Customer Service Department (415 957-0886). DO NOT CALL THE 800# OPERATORS FOR ANY OTHER PURPOSE THAN PLACING AN ORDER.
